

Time Frames for Dental Treatments

One day dental treatment

Fillings, extractions, cleaning and plaque removal, teeth whitening, root canal treatments, dental implantation phase one, denture repair, denture rebasing, preparation for crowns/ dental implant restoration/ dental veneers/ inlays can be done as part of a one day dental trip, as well as fitting of ready crowns, veneers, dental implant crowns, inlays.

Two weekend dental treatment

Weekend no. 1.

Fillings, root canal treatments, fissure sealing, extractions, preparation of teeth for crowns/ dental veneers/ inlays, teeth impressions for crowns/ dental veneers/ inlays, implant surgery with sutures removed elsewhere (e.g. by local dentist), sinus lift, temporary dentures.

Weekend no. 2.

Crowns/ dental veneers/ inlays/ dental implant crowns fitting (if teeth impressions had been taken a week earlier), suture removal if surgery happened on weekend no. 1.

Weeklong dental treatment (7-10 days)

Weeklong dental work includes min. 7 days following. Dental implant intervention with suture removal, crowns/ dental veneers/ inlays/ dental implant crowns, non-temporary dentures start-to-finish in a week.

Day 1-2

1st visit to the clinic, preparation of treatment plan, X-ray, start of treatment and preparation for dental work (e.g. drilling, impressions).

Day 2-6

Check-ups, temporary crowns fitting.

Day 7-10

Permanent dental work fitting, finishing and departure.

Dental implant intervention

1st visit - phase one (1-3 days)

If you come to have a dental implantation treatment, the implant is the first to be put in place which takes 1 day.

2nd visit - phase two (7-10 days)

After a healing period of 1-3-6 months, the superstructure (e.g. bridge, crown) can be prepared within 10 days, or a prosthesis will be prepared immediately on the freshly placed implant provided that sufficient bone is available and the patient will be able to leave the surgery with usable teeth that day or the day after.

Send us your dental treatment enquiry to find out more about the time frame for the particular dental treatment you require.
